Met Office Aberdeen Meteorologist's View
Severe wind chill at height late in day.

Forecast for Tuesday 15 Nov 2022

Weather: Cloud thickening through the morning, merging the patchy light rain and drizzle to longer and heavier periods of occasionally heavy rain for the afternoon, this turning wintry down to 800 m, before gradually clearing to the north in the evening.

Maximum wind: Southeast initially mean 35-40 mph with gusts reaching 60 mph across most exposed ridges and summits, gradually easing from mid-morning.

Chance of cloud-free hill tops above 800m: Initially 50% in north and 25% in south, becoming generally 10% or less during the afternoon

Low cloud and visibility: Becoming moderate or poor in rain, very poor in snow also within cloud with bases broken at 500m initially in north, otherwise lowering and turning increasingly widespread.

Temperature: **Glens:** Plus 6 Celsius increasing 12 Celsius during the afternoon
At 800m: Plus 5 Celsius
Freezing level: Lowering 1000 m by late afternoon
